Polyurethane foam insulated to keep hot and cold.

Do not fill with boiling water, maximum temperature 70°C.

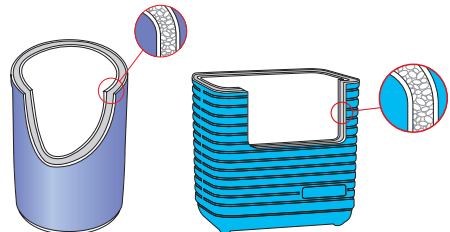

No after taste, made of quality material.

Temperature can be kept about 10 hours, time will be various on the volume of storing water.

During washing, please use fine cloth and soapy water, do not immerse in water in order to keep insulation material in good condition.

- Foam insulation.
- Heat resisting, non-odorless inner container.

**! WARNING**  
 Remove the sachet of carbon and wash the container thoroughly in warm water before use.
